SteelMaster Buildings Maintains A+ Standards

When it comes to customer service, ethics, and integrity, SteelMaster Buildings means business.

The company's commitment to high standards has earned them an average A+ Rating for two decades with the Better Business Bureau (BBB), a consumer organization that monitors a company's record of addressing customer complaints. A company affiliated with the organization agrees to conform to the BBB's code of business practices and accedes to cooperate with them to resolve any disputes. According to the BBB, an A+ rating is exemplary and means that they have no doubt about the company's trustworthiness.

SteelMaster has National Laboratory Covered

Approximately 35 miles northwest of Santa Fe, N.M. sits Los Alamos National Laboratory—a site which soon will be dotted with 11 SteelMaster Buildings.

The laboratory is one of the largest science and technology institutions in the world that conducts multidisciplinary research for fields such as national security, outer space, renewable energy, medicine, nanotechnology, and supercomputing. Los Alamos is one of two laboratories in the U.S. where classified work towards the design of nuclear weapons is undertaken.

SteelMaster on the Ground in Haiti

In the aftermath of Haiti's recent earthquake which killed an estimated 300,000 people and left another one million homeless, relief organizations have been working around the clock to help alleviate the devastation. Two humanitarian organizations and a church pastor were in need of buildings and contacted SteelMaster Buildings, which is based in Virginia Beach, Va. to provide them.

When World Vision Intl. and World Vision Haiti, a repeat customer of SteelMaster's for many years needed additional shelters for food storage for the relief efforts, they contacted SteelMaster Buildings knowing that we would under promise and over deliver.

Steel Building Supports Trikk Pony

The 10 hardworking horses at Trikk Pony Stables in Freeport, Grand Bahamas Island provide joy to hundreds of vacationers each year who hoof it up to experience life on the beautiful island oasis. But after business hours, life was less than desirable for the horses, which were housed in a steel railing barn with no walls.

"When it rained, the horses would all get wet," says Leo Munnings who owns Trikk Pony Stables, which offers the island's only all-beach horseback riding adventures.
